

MANIKANTA NALAM

Computer Science Undergraduate (AI & Data Science) — Software Engineer Intern

Chennai, India | +91 7036929246 | manikanta172834@gmail.com
linkedin.com/in/manikanta-nalam | github.com/manikanta2834 | manikanta-navigates-code.lovable.app

Professional Summary

Computer Science undergraduate with hands-on experience building and deploying full-stack applications. Proficient in Java (Spring Boot), Python, and SQL, with strong foundations in Object-Oriented Programming, Data Structures, and Algorithms. Experienced across the full Software Development Life Cycle (SDLC) – requirements gathering, design, development, testing, and deployment. Skilled in frontend (React, Vue 3, Tailwind CSS) and backend (Spring Boot, RESTful APIs) development, relational databases (PostgreSQL, MySQL), Git/GitHub version control, and application security practices. Strong analytical and problem-solving ability, demonstrated through national-level hackathons, open-source contributions, and technical competitions. Quick learner, self-starter, and effective collaborator in fast-paced, ambiguous environments.

Technical Skills

- **Programming Languages:** Java, Python, C, SQL, HTML/CSS, JavaScript
- **Data Structures & Algorithms:** Problem Solving, Complexity Analysis, Object-Oriented Programming (OOP)
- **Web Technologies & Frameworks:** React, Vue 3, Spring Boot, Tailwind CSS, RESTful APIs
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Software Engineering Tools:** Git/GitHub, Docker, Version Control
- **Software Engineering Practices:** SDLC, Automated Testing, Debugging, Application Security (JWT, reCAPTCHA v3)
- **AI/ML Integration:** Scikit-learn, Spring AI, Ollama, Generative AI, Prompt Engineering

Work Experience

Open Source Software Intern

Jun 2026 – Jul 2026

COSS-IN (Remote)

- Built a full-stack Website Monitoring System from requirements through prototype deployment, following standard SDLC practices in a 1-month open-source internship.
- Developed the frontend with Vue 3 and Tailwind CSS, and the backend with Spring Boot (Java 17) and RESTful APIs; designed and integrated a PostgreSQL database for monitoring data and application state.
- Implemented JWT-based authentication, Google reCAPTCHA v3, and Cloudflare Turnstile to secure the application against unauthorized access.

Projects

Website Monitoring System – Open Source Summer Internship Project

Jun – Jul 2026

- Designed and built a sandbox-level website monitoring system using Vue 3, Tailwind CSS, Spring Boot (Java 17), and PostgreSQL, following SDLC practices from design through deployment.
- Integrated Ollama and Spring AI for AI-assisted monitoring and analysis features.
- Secured the application with JWT authentication, reCAPTCHA v3, and Cloudflare Turnstile bot protection.

SBI Web Application – UI/UX Interface Redesign

Feb 2026

- Redesigned the State Bank of India web application interface using React and Tailwind CSS, restructuring navigation and user flow for improved usability and accessibility.
- Awarded 1st Prize at UX Surgery: Interface Redesign Sprint, hosted by IEEE Computer Society, Vel Tech.

Tech Stack Advisor – ML-Powered Web Application

- Built a recommendation engine in Python and Scikit-learn to suggest optimal technology stacks based on project parameters.
- Developed a Gradio UI and containerized the application with Docker, deploying to Hugging Face Spaces for scalable, reproducible delivery.

AI Tourist Guide – Smart Travel Planning System

Feb 2026

- Built a travel planning application using React, Tailwind CSS, and MongoDB, generating personalized recommendations from user preferences, budget, and time constraints.
- Integrated real-time weather, traffic, and event data for dynamic, location-based itinerary generation; built during a 24-hour hackathon at Jeppiaar Institute of Technology.

Education

B.Tech – Computer Science & Engineering (AI & Data Science)

Jul 2024 – Jul 2028

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science & Technology, Chennai

Intermediate (MPC) – Class 11 & 12

Jul 2022 – Mar 2024

Sri Chaitanya College of Education

Languages

English | Hindi | Tamil

Achievements & Competitions

- **1st Place** – UX Surgery: Interface Redesign Sprint, Vel Tech & IEEE Computer Society (Feb 2026): Won 1st place for redesigning the SBI web application UI/UX.
- **5th Place among 47 participants** – Software Security & Vulnerability Assessment Bootcamp, IIITDM Kancheepuram.
- **National-Level Competitor** – OS Bug Bounty Challenge, C-DAC Chennai (Jul 2026).
- **Selected Open Source Contributor** – Elite Coders Summer of Code (ECSOC), ongoing.
- **Hackathon Participant** – HACK FUSION 1.0: Built 'AI Tourist Guide' during a 24-hour hackathon at Jeppiaar Institute of Technology.

Certifications & Recent Events

- **Mastering Software Security & Vulnerability Assessment** – 6-Day Bootcamp, IIITDM Kancheepuram, under ISEA Phase-III, MeitY, Government of India. Covered secure coding, vulnerability analysis, Nuclei, Grype, Falco, and Ghidra.
- **Build with AI Bootcamp 2026**, Chennai – Google for Developers & Hack2Skill (Aug 2026). Certificate of Participation; Generative AI, AI Agents, and production-ready AI architectures. Certificate ID: 2026H2S08WAICHNN-P00419.
- **Generative AI Mastermind** – Outskill & Moneycontrol, 2-day hands-on program. Prompt Engineering, Custom GPTs & AI Bots, AI Workflows & AI Agents.
- **MERN Stack: Launch Your Startup Idea** – DevTown, in collaboration with Google Developer Groups (VIT-AP) & Microsoft Student Chapter (MSIT). Full-stack development with MongoDB, Express.js, React, and Node.js on a real-world startup project.
- **Complete MySQL Bootcamp: Learn SQL Step by Step** – Udemy, Sheikh Coding Institute (Sep 2025). SQL queries, database management, joins, constraints, and data manipulation.
- **Introduction to C** – SoloLearn, Certification completed.
- **Python Development & Data Science: Variables and Data Types** – Udemy, Certification completed.
- **Complete MS Office Masterclass: Beginner to Advanced** – Udemy, Learnity IT (Aug 2025). Word, Excel, PowerPoint, Outlook.
- IEEE STEP 2025 – Leadership, innovation, and engineering best practices workshop.
